*All That Is Bitter & Sweet*

---

Press Club twice, and gave the keynote on modern slavery to the General Assembly of the UN. Author of the NYTimes best seller “All That is Bitter & Sweet,” Ashley earned an MPA at Harvard Kennedy School. She won the Dean’s Scholar Award at Harvard Law, for her paper “Gender Violence, Law & Social Justice.” Her feminist Op-Eds, “The Conversation” and “Forget Your Team: It’s Your Online Gender Violence That Can Kiss My Ass,” went viral.

Future Fresh: Techs Transforming Financial Services

The future is always here. If you know what to look for. How might emerging genomic technologies be used to improve the customer experience? How will the financial institutions of the future be structured? And, how have you been affected by the ever-increasing waves of big data? Our panel of thought leaders will discuss how respecting the human institution of banking and enabling leaders to experience the digital transformation that is occurring in banking industries. What is the role of payments and the data revolution a mobile phone? And what about the fear factor? How is the technology learning about us? And how will this impact you? Join Wetheringtons, AAP, a Director of Strategic Insight in ProfitStars. Our diverse panel of presentations, and articles designed to create and educate financial executives in the trends and implications of new technologies. We will also discuss the critical role of strategic vision, planning opportunities and incentives to payback, and the social influence of social channels, and how that relates to the business model and daily delivery. We will also serve as Technology Faculty Chair until second annual, which has included seminars, and has delivered between 2016 and 2017. The firm also published the “Future of the Internet in 2020” and “Future of the Internet in 2021.”

Steven W. Rick
Chief Economic, CUNA Mutual Group

U.S. Economic Outlook & Its Impact on Credit Unions

The presentation will discuss how the global economy, the overall financial sector, and the labor market will affect the credit union balancesheet and earnings performance. Mr. Rick will analyze and establish standards against which your credit union’s own performance can be measured. Mr. Rick will also identify trends of savings and loan activity, and weigh the influence of future economic events on growth patterns out into 2016.
