

# ezfunds<sup>+</sup>instant

- » **Value Statement:** Payment services are a core competency and strategic priority of VolCorp.
- » **Benefits:** VolCorp's instant payments solution combines a full-service product, a unified platform, and decades of digital payments experience.

VolCorp's experience offering and implementing payment solutions spans decades and includes a wide range of payment networks like ACH, Wires, Checks, Cash, and now Instant Payments. Over time, we have meticulously developed efficient internal processes, required policies and procedures, regulatory rigor, and the expertise to seamlessly implement and support payment systems for credit unions.

VolCorp's newest payment services, FedNow and RTP, are full-service solutions that include all the required FedNow and RTP functionality, including a unified platform, core and mobile banking integration, real-time settlement, liquidity management, FRB and TCH onboarding, daily support, and training.

Unlike other third-party service providers, with VolCorp, there is no need for additional relationships to fully implement instant payments.
