VolCorp Selects Aptys Solutions for Payments Processing

Nashville, TN, March 25, 2023 – [Volunteer Corporate Credit Union \(VolCorp\)](#), a leader in payment solutions for credit unions, announces its new strategic partnership with [Aptys Solutions](#), a leading fintech partner of cloud-based, multi-channel, real-time and mobile payments to more than 5,500 financial institutions.

In late 2022, VolCorp completed a lengthy and thorough review of several third-party payment providers to determine the best solution, going forward, for their legacy ACH/wire processing as well as faster payments including RTP® and FedNowSM. The decision to partner with Aptys ultimately came down to their experience serving the unique needs of wholesale financial institutions including Corporate Credit Unions. Equally important was Aptys' ability to automate wires end-to-end, to provide a single source for all payment rails, including faster payments with FedNowSM and RTP®, ACH, wires, and mobile payments. Aptys has a proven track record of bringing new, innovative products to market that credit unions need to remain competitive.

"We are excited about our new partnership with Aptys," said Jeff Merry, President & CEO of VolCorp. "As we enable the use of faster payments for our members and integrate the new service into one platform that includes ACH, wires, and faster payments, VolCorp's member credit unions will have the ability to offer their members a choice in funds movement based upon settlement timing, price, and levels of regulatory safeguards. By combining both legacy and emerging payment processing options into one system, VolCorp's member credit unions can simplify its payments processes, access a variety of payment applications from a single login, and providing an effortless and secure user experience."

"We are grateful that VolCorp selected Aptys as its strategic fintech partner, said Naseer Nasim, President & CEO of Aptys Solutions. "Aptys' market leading gateway connectivity to the FedNowSM Service and RTP® is just the beginning of our strategic initiative in addressing the growing market demand for faster payments and we are
